The future of productivity is connectivity

Accelerate your Business Forward

The ApeosPort-VII / DocuCentre-VII series from Fuji Xerox is designed to accelerate your business forward, removing technological barriers to allow you greater flexibility to work the way you want to work.

The entire user experience has been redefined, from its clever interactive touch screen and intelligent automated processes, to its seamless integration with cloud services and security features, allowing you powerful control over the creation and distribution of physical and digital documents.

The ApeosPort-VII / DocuCentre-VII series is at the heart of your pathway to realise enhanced business operability and scalability helping you excel today and stay ready for the future.

Intuitive user experience

The latest multifunction devices share the same intuitive user interface that you have come to know and understand on your smart devices for a simple and immersive user experience.

Carefree printer management

Let Fuji Xerox proactively manage the health of your print device with access to the right resources and on-time insights, while you focus on your core business.

Copy/Print

Colour/B&W **70** sheets/minute*¹

Scan

Colour/B&W **270** ppm*²

Printing resolution

1200×2400 dpi*³

Mobile and Cloud Ready

Wi-Fi Connectivity

*1: Sheets/minute for C7773, 65 sheets/minute for C6673, 55 sheets/minute for C5573, 45 sheets/minute for C4473, 35 sheets/minute for C3373, 30 sheets/minute for C3372 and 25 sheets/minute for C2273.

*2: PPM by single-pass duplex scanning using the Duplex Automatic Document Feeder C2-PC. 154 ppm when using the Duplex Automatic Document Feeder B1-PC.

*3: DPI when the document type is set to photo. 600 x 600 dpi for texts, text/photos, and maps.

360° data security

Secure data confidentiality, integrity and availability with strong device level encryption, document rights management and potential data backup creation.

Connect on demand

As your business evolves, Fuji Xerox solutions and services can help you with your transition smoothly and seamlessly.

Intuitive User Experience

A more connected world is the key philosophy behind Fuji Xerox's pursuit to re-define the user experience – and this is embodied in the ApeosPort-VII/DocuCentre-VII Series.

Incorporating familiar gestures of tap, swipe and select, and customisation to suit your workflow, the redesigned touch panel is your gateway to a new dimension of operability. Easy connectivity options with mobile devices and various cloud services, and a range of smart sensors working in the background to make sure the device is ready to go, when you need it, as you need it.

All new User Interface (UI)

Completely renewed UI panel design

The new UI panel can be operated with a tap and swipe just like a smartphone, adding an intuitive and familiar user experience to device operations. All operations can be completed using a single finger on the 10.1 inch colour touch panel. The improved menu navigation makes finding menu items easy, with fewer steps, improving overall operability.

Adjustable UI panel angle

A tilt mechanism has been adopted to enable angle adjustment, enabling the screen to be adjusted to avoid light reflections, or for the user to adjust its angle for an easier view.

Advanced operability

Colourful and user-friendly

Each function has been cleverly grouped by colour, allowing easy user recognition. Frequently used basic functions are displayed in the coloured area so they can be easily found and actioned.

Easy to find and locate

A hierarchy-free screen structure enables the various settings to be checked in a list. Detailed settings can also be specified via tap and swipe operations with a single finger.

Support for multiple languages

The device supports multiple languages including Japanese, English, Chinese (simplified/traditional), Korean, Thai, and Vietnamese, and can be easily switched to accommodate different users.

Selecting a destination becomes even easier

Destinations can be easily specified from the UI panel when sending a fax, and when sending an email or storing data to your computer when scanning. With the uniform display, only the usable functions and destinations will be displayed according to what you have entered. Even if you are unaccustomed to operating this device, you should be able to specify your destination without worries.

Mobility

Near Field Communication (NFC)

The Fuji Xerox ApeosPort / DocuCentre VII series offers NFC technology as a standard, for simplifying the print and scan process. Using NFC technology, a contactless communication can be established between a mobile and the multifunction device.

Wireless Option

The ApeosPort / DocuCentre VII series comes with the Wi-Fi option for the freedom to put the device right where you need it. Also with Wi-Fi Direct®, mobile devices can connect directly (and securely).

Mobile App

Fuji Xerox Print Utility Mobile App enables users to print directly from iOS or Android™ devices, putting mobile printing and scanning convenience at your fingertips. Print stored photo albums, web pages or shoot and print on the go from your iOS or Android™ device. Simply wave your NFC enabled mobile device on the multifunction device to automatically launch Print Utility and you are ready to print or scan.

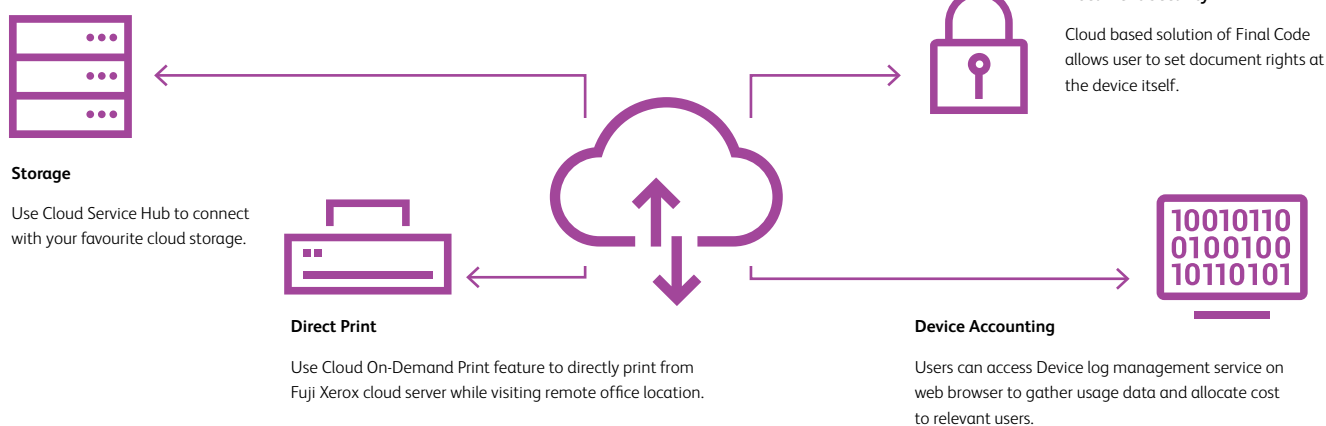

Portable UI

Your smartphone (iOS and Android™) can be used as a portable UI panel. Simply set a job on your smartphone and touch the NFC (near field communication) reader of the multifunction device to perform basic operations such as copy, scan and fax (Store to Folder or E-mail).

Up to 30 favourites can be registered

Portable UI for Business enables up to 30 frequently used sets of settings to be registered as favourites. These settings can be recalled with a single touch. The destination for sending faxes or saving scanned data can also be registered for added convenience.

Fuji Xerox Cloud Services

User Friendly Operations

User friendliness via light and sound

The device cleverly uses light and sound to notify the user of its state. A gentle sound is easily heard over office noise, changing to correctly notify the user of a completed job. The center tray area is equipped with a sensor – a soft blue light flashes while printing and stays lit when printing is completed, signifying a job ready for collection. This reduces information leaks due to unretrieved printed documents.

Smart WelcomEyes

Sensors installed in the multifunction device detect an approaching user, automatically waking the device from sleep mode. This allows sleep mode to be engaged permanently for excellent energy saving – while ensuring that the device is ready to go, when you need it.

Document multi-feed detection

The Duplex Automatic Document Feeder (DADF) features an ultrasonic sensor that is capable of detecting overlapping documents feeding incorrectly, preventing scanning errors when copying or scanning multiple documents.*

* Provided for C7773 / C6673 only.

Widely supporting various paper types

From postcards to long paper

The device supports a wide variety of sizes and weights, from envelopes, postcards to long documents up to a maximum of 320 x 1200 mm^{*1}, and from 52 to 300gsm. Long printing^{*2} feature gives the ability to print longer documents such as banners.

*1: Printable area is 305 x 1194 mm.

*2: Only supported by the PCL driver and the Adobe® PostScript®3™ driver.

Retractable paper tray closed with a gentle push

Paper trays are equipped with a retracting mechanism that gently closes the tray without pushing it in all the way.

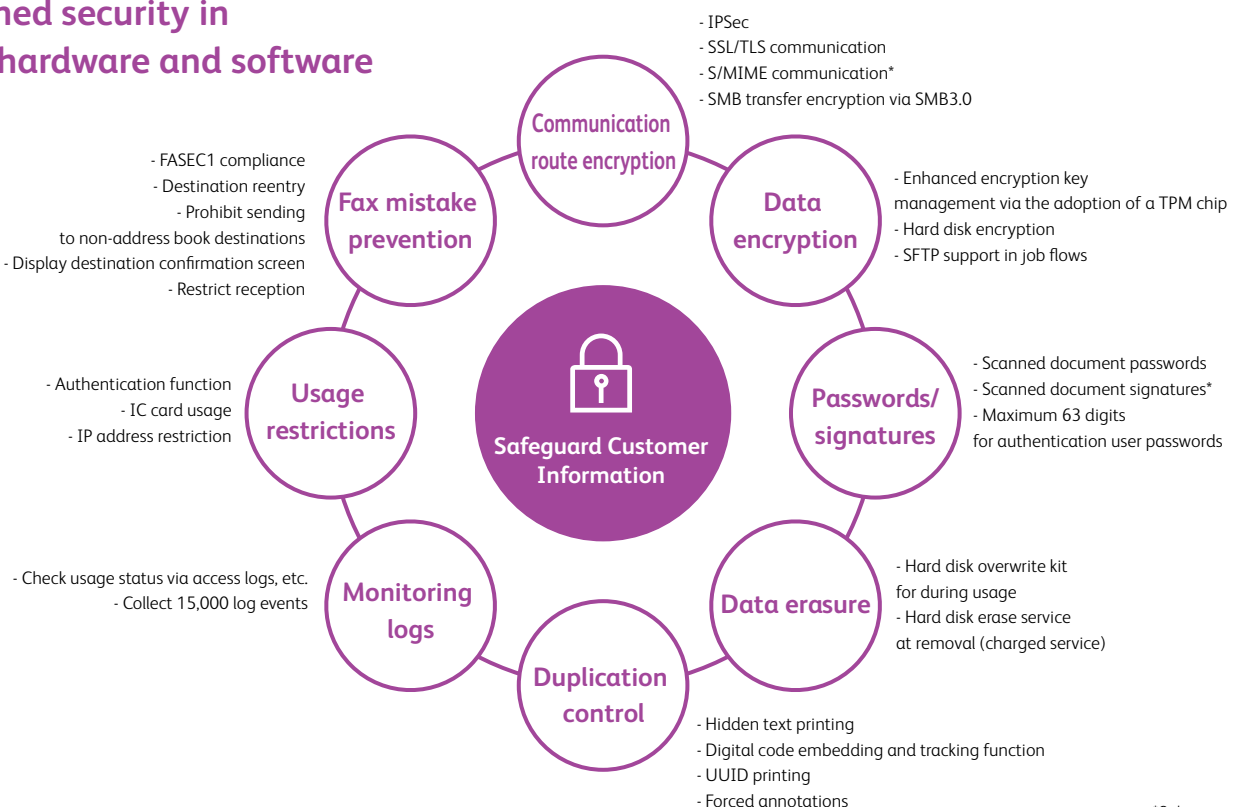

360° data security

Fuji Xerox proudly defines its holistic security approach on the basic principles of Confidentiality, Integrity and Availability.

The ApeosPort-VII/DocuCentre-VII Series incorporates security features to combat the significant threats facing the entire information management life cycle; starting at device level with document creation, to setting access rights for document sharing both internally and externally, to creating potential backup plans for all scanned documents for business continuity planning.

Enriched security in both hardware and software

*Only supported by ApeosPort.

Connect on demand

With the ever evolving world of connectivity, Fuji Xerox is continuously working towards helping our customers achieve a common vision of seamless workflow integration to overcome redundancies, reduce turnaround times and the flexibility of working anytime, anywhere.

Connect the ApeosPort-VII/DocuCentre-VII Series with existing document workflows over cloud services and internal processes to achieve an optimum level of scalability for enhanced productivity.

Secure, easy printing when away from office

Inconveniences we hear

- When I need to print away from my office, it is troublesome to ask someone else to print for me by sending the file by e-mail or handing a USB flash memory, or installing a printer driver to my laptop.
- When conducting business with people from different departments, the required materials and corrected documents after meetings cannot be immediately printed because there is no LAN environment that can be commonly used.

As long as there is an Internet connection, Cloud On-Demand Print can be used to easily print via the cloud at external offices.

Cloud On-Demand Print

Register documents on a cloud server from a computer or mobile device and print them from a multifunction device at the location using an ID and password. There is no risk of losing data and you do not need a dedicated driver. The required documents can be printed easily and securely when away from the office.

More efficient digitisation processes

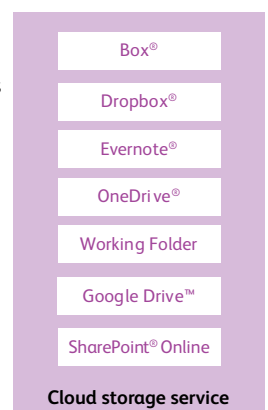

Inconveniences we hear

- We would like to switch to file sharing on the cloud but are concerned about whether scanning and searching will remain as smooth as before
- A large amount of time and effort is spent on entering and filing large amounts of accounting vouchers to accounting software

Multiple cloud services can be integrated into a single service with Cloud Service Hub. It also enables linkage with business cloud services of various companies and enables smooth operations.

Cloud Service Hub

In addition to Working Folder, you can scan to and search cloud storage services such as Box®, Dropbox®, Evernote®, GoogleDrive™, OneDrive®, SharePoint® using a single login. Search multiple cloud services to locate your required document thanks to automatic OCR processing of your scanned documents.

 Cloud Service Hub

Easy accounting of multifunction device usage data in multiple offices

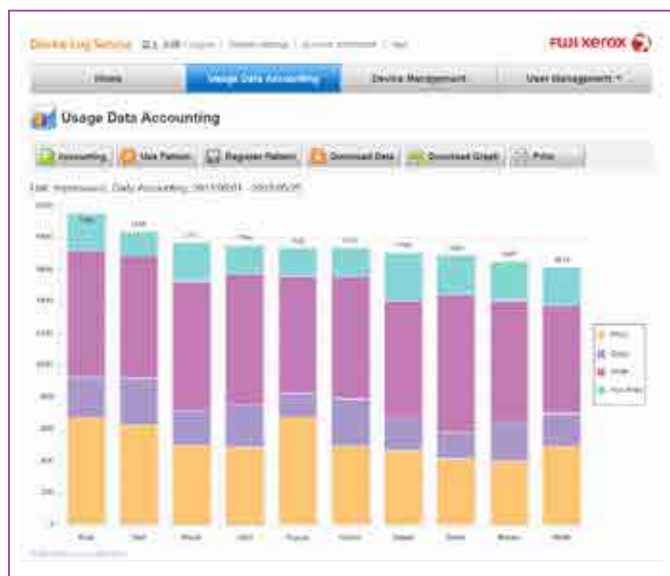

Inconveniences we hear

- Telecommuting has made it impossible for a company to calculate how much documents are printed by each department.
- Since the usage data is collected and totalised in different ways by each office, the company cannot allocate costs by looking at the overall balance.

The Device Log Service enables the logs of multifunction devices at multiple offices to be collected and totalised, reducing management costs.

Device Log Service

See who's using the ApeosPort-VII/DocuCentre-VII via a web browser – usage data is displayed as colour-coded charts, without needing a dedicated server or special procedures. This reduces the work of a manager and raises awareness about cost savings.

Example of totalisation by department

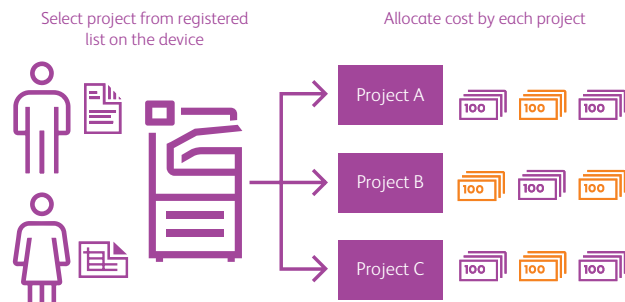

The device log service allows you to gather the usage status of all multifunction devices in one place, such as head office, instead of at separate locations. Total the results of each office and allocate costs to the relevant users.

Totalisation results by user

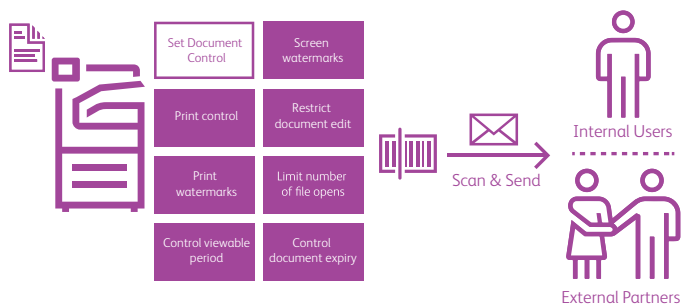

Cost Control

Total control over your print activities gives you better management over your costs and increases your efficiency. With one-touch user authentication, you can efficiently secure all print activities, preventing unnecessary wastage. User-based tracking, along with different levels of authentication (card, code, log-in), makes you an impenetrable gatekeeper – allowing only authorised users to activate the printer. Program the release of prints only when the authorised user has approached the MFD.

Security

Cloud based solution Final Code, uses data-centric security and Information Rights Management (IRM) to control the use of, modification and distribution of your content. With the use of IRM, your information has the highest security standards, reducing the risk of information leaks. If confidential information leaks do occur, you can respond swiftly – securing your data and identifying the source of the leak. When integrated with the Fuji Xerox ApeosPort-VII/DocuCentre-VII, paper documents scanned by the device are secured with the same process as digital documents.

Carefree printer management

Work more efficiently and manage resources more effectively. Easy integration of Remote Services enables remote monitoring of consumables and automatic meter capture*.

* Customers need to activate the following Fuji Xerox services (at no extra cost) to receive described benefits EP-BB: Electronic Partnership Broad Band service

Automated supplies notification and ordering

Fuji Xerox automates the supplies replenishment process, making it possible to be alerted when consumables are running low. For ApeosPort-VII / DocuCentre-VII, we'll automatically order toners, drums and waste toner bottles based on actual usage – minimising order hassles and optimising your inventory.

Automatic meter capture

Eliminate manual steps involved in collecting and reporting meter reads. Automating the meter reading and submission process will help to improve the accuracy of invoices by reporting actual usage.

Green Technology

Newly-developed Super EA-Eco toner

The device achieves a high resolution output of 1200 x 2400 dpi using the industry's smallest toner particles providing clearer texts, lines and more beautiful halftones.

Bio-based plastic/recycled plastic

Fuji Xerox multifunction devices adopt bio-based plastic parts using cellulose derived from wood (which reduces CO₂ emissions). Recycled plastics used in some external parts helping to reduce impact on global warming.

Reducing wasteful paper output

Received faxes can be stored in the device folder instead of being immediately printed. You can decide which faxes need to be printed after checking them on the UI panel.

Checking faxes while on the move. Faxes received in the confidential box of the multifunction device can be transferred to a smartphone or tablet device for checking outside of the office.

Interface	Standard	Ethernet 1000BASE-T / 100BASE-TX / 10BASE-T, USB3.0	

^{*1} The speed may be reduced due to the image quality adjustment. The printing speed may be reduced depending on the document.^{*2} Adobe® PostScript® 3™ is standard on ApeosPort models.
^{*3} Please refer to our official website for the latest supported OS.

Scan Function

Item		Description
Type		Colour Scanner
Scan Resolution		600 x 600 dpi, 400 x 400 dpi, 300 x 300 dpi, 200 x 200 dpi
Scan Speed		Same as the Scan Speed for the Duplex Automatic Document Feeder
Interface	Standard	Ethernet 1000BASE-T / 100BASE-TX / 10BASE-T

Fax Function (Optional)

Item		Description
Original Size		Max: A3, 11 x 17", Long document (Longest 600 mm)
Recording Paper Size		Max: A3, 11 x 17" Min: A5
Transmission Time		2 seconds and more but fewer than 3 seconds ^{*1}
Transmission Mode		ITU-T G3
Applicable Lines		Telephone subscriber line, PBX, Fax communication (PSTN), Maximum 3 ports ^{*2} (G3-3 ports)

^{*1} When A4 size document with approximately 700 characters is transmitted in standard image-quality (8 x 3.85 lines/mm) and in high-speed mode (28.8 kbps or faster, JBIG). Only indicates the time for transmitting the image information and does not include the communication control time. The total communication time will vary depending on the contents of the document, the type of machine receiving the fax, and line condition.
^{*2} No. of FAX lines is up to 3 ports. Port refers to number of channels for FAX.

Duplex Automatic Document Feeder B1-PC

Item		Description					
		C5573	C4473	C3373	C3372	C2273	
Original Size / Paper Weight		Max: A3, 11 x 17"; Min: A5 ^{*1} 38 to 128 gsm (In Duplex: 50 to 128 gsm)					
Capacity ^{*2}		130 sheets					
Scan Speed ^{*3}	Copy (A4 LEF Simplex)	B/W: 55 sheets/minute Colour: 55 sheets/minute	B/W: 45 sheets/minute Colour: 45 sheets/minute	B/W: 35 sheets/minute Colour: 35 sheets/minute	B/W: 30 sheets/minute Colour: 30 sheets/minute	B/W: 25 sheets/minute Colour: 25 sheets/minute	
	Scan	B/W: 80 sheets/minute, Colour: 80 sheets/minute (1 pass, 2 sided scanning: B/W: 154 ppm ^{*4} , Colour: 154 ppm ^{*4}) [Fuji Xerox Standard Paper (A4 LEF), 200 dpi, to Folder.]					

^{*1} The minimum custom size is 125 x 85 mm.
^{*2} 64 gsm paper.
^{*3} The scanning speed varies depending on the documents.
^{*4} 160 ppm for both B/W and colour when Quiet Mode is disabled. This setting can be changed to suit the customer's usage.

Duplex Automatic Document Feeder C2-PC

Item		Description	
		C7773	C6673
Original Size / Paper Weight		Max: A3, 11 x 17"; Min: A6 ^{*1} 38 to 200 gsm (In Duplex: 50 to 200 gsm)	
Capacity ^{*2}		250 sheets	
Scan Speed ^{*3}	Copy (A4 LEF Simplex)	B/W: 70 sheets/minute Colour: 70 sheets/minute	B/W: 65 sheets/minute Colour: 65 sheets/minute
	Scan	B/W: 135 sheets/minute, Colour: 135 sheets/minute (1 pass, 2 sided scanning: B/W: 270 ppm, Colour: 270 ppm) [Fuji Xerox Standard Paper (A4 LEF), 200 dpi, to Folder.]	

^{*1} The minimum custom size is 84 x 139.7 mm.
^{*2} 64 gsm paper.
^{*3} The scanning speed varies depending on the documents.

HCF B1 (Optional)

Item		Description
Paper Size		A4 LEF, Letter LEF, B5 LEF
Paper Weight		55 to 216 gsm
Feeding Capacity / Number of Tray*		2030 sheets x 1-tray
Dimensions		W 389 x D 610 x H 380 mm
Weight		29 kg

^{*80 gsm paper.}

Envelope Tray (Optional)

Item		Description
Paper Size		DL LEF, ISO-C4, ISO-C5 LEF, ISO-C6 LEF, Commercial #10 LEF, Monarch 7.3/4 LEF Custom Size: 241 x 372 mm to 90 x 98 mm

Feeding Capacity / Number of Tray*		50 sheets x 1-tray
Dimensions		W 620 x D 566 x H 87 mm
Weight		3 kg

^{*Commercial #10 Envelope.}

Side Tray

Item		Description
Paper Capacity*		100 sheets
Dimensions		W 324 x D 567 x H 228 mm

^{*64 gsm paper.}

Finisher-A2 (Optional)

Item	Description
Type	Sort (Offset available) ^{*1} / Stack (Offset available) ^{*1}
Paper Size	Max: A3, 11 x 17"; Min: A5, Postcard (100 x 148 mm)
Paper Weight ^{*2}	52 to 256 gsm
Paper Capacity ^{*3}	Finishing Tray [Without Stapling] A4 LEF: 500 sheets, B4: 250 sheets, A3 or larger: 200 sheets, Mixed Size Stacking ^{*4} : 250 sheets [With Stapling] 30 sets or A4 LEF: 500 sheets, B4: 250 sheets, A3 or larger: 200 sheets, Mixed Size Stacking ^{*4} : 250 sheets
Staple	Capacity A4: 50 sheets (90 gsm or less) B4 or larger: 30 sheets (90 gsm or less) Paper Size Max: A3, 11 x 17" Min: B5 LEF Position Single stapling, Dual stapling
Dimensions	W 478 x D 461 x H 238 mm
Weight	11 kg

• Note: The unit cannot be installed on ApeosPort-VII C7773/C6673.

*1 [No Offset] is selected by factory default. The settings can be changed according to the customer's use situation.

*2 Documents may not be printed correctly depending on usage conditions. (52 to 55 gsm)

*3 64 gsm paper.

*4 When larger size sheets are stacked on top of smaller size sheets. 250 sheets when large size sheets are smaller than A3. 200 sheets when large size sheets are A3 or larger.

The same applies to when staple-free and stapled bindings are mixed or different stapling positions are mixed.

Finisher-B3 (Optional)

Item	Description
Type	Sort (Offset available) ^{*1} ^{*2} / Stack (Offset available) ^{*1} ^{*2}
Paper Size ^{*3}	Max: A3, 11 x 17"; Min: A5
Paper Weight ^{*4}	52 to 300 gsm
Paper Capacity ^{*5}	[Without Stapling] A4: 2000 sheets, B4 or larger: 1000 sheets, Mixed Size Stacking ^{*6} : 300 sheets [With Stapling] A4: 100 sets or 1000 sheets ^{*7} , B4 or larger: 75 sets or 750 sheets [With Booklet Finishing ^{*8}] 50 sets or 600 sheets [With Fold ^{*8}] 500 sheets
Staple	Capacity 50 sheets (90 gsm or less) Paper Size Max: A3, 11 x 17" Min: A5 LEF Paper Weight 52 to 256 gsm Position Single stapling, Dual stapling
Punch ^{*9}	Number of Holes 2-hole / 4-hole punch or 2-hole / 3-hole punch (US Specifications) Paper Size A3, 11 x 17", B4 ^{*10} , A4 ^{*11} , A4 LEF, Letter ^{*11} , Letter LEF, B5 ^{*11} , B5 LEF ^{*10} , A5 ^{*11} , A5 LEF ^{*11} Paper Weight 52 to 220 gsm
Booklet Finishing ^{*8}	Capacity Saddle Staple: 15 sheets Single Fold: 5 sheets Paper Size Max: A3, 11 x 17" Min: A4, Letter Paper Weight Saddle Staple: 64 to 80 gsm ^{*12} Single Fold: 64 to 105 gsm
Dimensions ^{*13}	W 592 x D 653 x H 1041 mm With Booklet Finisher: W 592 x D 673 x H 1079 mm
Weight	25 kg With Booklet Finisher: 35 kg

*1 The offset feature is set to disabled by factory default. The setting can be changed as necessary.

*2 Outputs whose weight is 257 gsm and more or width is less than 210 mm are delivered without offset stacking.

*3 Paper in the sizes larger than A3 or 11 x 17" or smaller than A5 are delivered to the Centre Tray.

*4 Documents may not be printed correctly depending on usage conditions. (52 to 55 gsm, 257 gsm and more)

*5 64 gsm paper.

*6 When larger size sheets are stacked on top of smaller size sheets.

*7 75 sets or 750 sheets with dual stapling.

*8 The Booklet Finishing function requires the optional Booklet Maker Unit for Finisher-B3. After a job with the Booklet Finishing function specified has been output, the next job may not be delivered until the sheets are removed from the output tray. Also, if larger size sheets are stacked on top of smaller size sheets after a job with the Booklet Finishing function specified has been run, the next job may not be delivered until the sheets are removed from the output tray.

*9 The Punch function requires the optional 2/4 Hole Punch Kit for Finisher-B3 or US 2/3 Hole Punch Kit for Finisher-B3.

*10 4-hole punch is not applicable.

*11 3-hole, 4-hole punch is not applicable.

*12 Covers can be up to 220 gsm (Extra Heavyweight).

*13 Inner connector within the body is excluded.
